MODEL	L12B Aquacel
Part number	56-A701
Plastic Colour	Clear
Light - Output	2 cd side beam, 3,5 cd vertical beam
Light - Duration	Minimum 12 hours
Dome - Type	Lens
Light - Type	Steady
Material	Moulded polythene
Storage Temperature	-30 C to +65 C
Operating Temperature	-1 C to +30 C
Storage Life	5 years
Weight - Nominal	80 g
Battery Type	Silver chloride
Activation	Water activated (pull cord)
Dimensions	106 x 31 x 22 mm
Approvals - Classification Societies	None
Approvals - Country	None
Nato Stock Number (NSN)	6135-99-433-5377

Construction

The L12B Aquacel consists of a moulded polythene case with four activation holes each sealed by moulded-in buttons. Inside, the case contains the water activated battery plates, which are connected internally to socket terminations at the top of the case. A cord is threaded through each of the fully sealed buttons so that they are removed in the correct sequence when the cord is pulled.

Operation

To activate, the buttons are removed by pulling on the cord and immersing the Aquacel in water. Once unsealed and in contact with water the Aquacel must be considered expended.

Transport Specification

The light is not subject to any transport regulations.

Packing Specification

To minimize shipping costs, all Aquacels are packed and supplied in boxes of 100 off.

The dimensions are:

Box of 100 off : 390 x 330 x 150 mm

Approximate packed weights are:

Box of 100 off : 8 kg
