Introduction

Daniamant introduces the new ST-250 and ST-500 Signalling Torch for use in liferafts and lifeboats, plus other lifesaving situations.

The ST-250 is approved to ISO18813:2022 and SOLAS requirements the ST-250 Torch is capable of Morse signalling and a constant beam, producing a maximum concentrated beam of 250cd.

Lasting a minimum of 5 hours, the torch is supplied with a spare LED bulb and battery and enclosed in a moisture proof case.

In addition to this, the Torch has been tested to IP67 and IP68 and is waterproof to 50m. It is compact and lightweight and uses user replaceable AA alkaline cell's. Ideal for everyday cabin use as well as in emergency liferaft grab bags.

The ST-500 uses a lithium battery to extend the life to over 12 hours and can produce a minimum of 1 lumen output. With the lithium cell the torch can operate at 0 degree Celsius for a minimum of 4 hours. The ST-500 does not have a spare battery or LED Bulb.

Features:

- Morse signalling
- Easy 'twist action' steady beam function
- User replaceable batteries
- User replaceable bulb
- CE/UKCA mark
- Lanyard
- Moisture proof storage case
- Lightweight

Installation:

The torch is supplied in a storage box and is ready for immediate use.

Service & Maintenance:

Due to the torch using Alkaline batteries it is recommended to check the batteries once per year and replace if required.
