

Daniamant

ST250 Signalling Torch

Usage and Maintenance Instructions

Description

The **ST250 Signalling Torch** is an electric torch suitable for use as equipment on survival craft and rescue boats.

Daniamant Limited

Unit 3, The Admiral Park, Airport Service Road, Portsmouth, UK PO3 5RQ
Telephone: +44 (0)23 9267 5100 Facsimile: +44 (0)23 9267 5101
www.daniamant.com

Operation

For momentary operation and for signalling, press the rubber button.

For steady light, rotate the black collar as indicated on the device to lock the switch in the on position.

Turn off after use to conserve battery power.

Maintenance

Regularly inspect the unit for signs of damage and make sure that the battery is installed and ready to activate.

Replace the battery regularly and before its expiry date.

Disclaimer

The technical data, information and illustrations in these instructions are believed to be correct at the time of print. No liability is accepted for any inaccuracies or omissions.

Product Disposal Instructions

Daniamant's Survivor Location Lights contain batteries as well as electrical and electronic components, and must therefore be segregated from the domestic waste stream and recycled. Disposing of this product correctly will help save valuable resources and prevent any potential negative effects on human health and the environment, which could otherwise arise from inappropriate waste handling. Daniamant's lights are marked with the symbol below which conveys that this waste must be treated separately from household waste.

To ensure compliance with the WEEE and Battery Regulations, the Survivor Location Lights placed on the market in the UK or Denmark should be returned to Daniamant in the UK or Denmark, or deposited in your nearest WEEE Designated Collection Facility, operated by your Local Authority.

Further copies of this installation and maintenance instructions are available to download from our website www.daniamant.com
A copy of these instructions must be held with the ships/owners training manual.
